VI.—Combinations of Chinese Cyclical Characters for the Years 1899-2008 inclusive.

A glance at this Table will show that it is formed by combining the Stems and Branches (天干, 地支) in regular order, beginning with the first of each. This gives the same combination every sixty years. Chinese chronology is computed by the cycles thus formed. A list of these cycles from B. C. 2637 to A. D. 1923 may be found in Mayer's Chinese Reader's Manual. The present cycle began in 1924.
